FINANCIAL REMEDIATION FRAMEWORK
FOR USE IN THE INDEPENDENT FORECLOSURE REVIEW**

In April 2011, federal banking regulators issued enforcement orders against 14 large mortgage servicers for deficient mortgage servicing and foreclosure practices. The orders required those servicers to retain independent consultants to conduct a comprehensive review of foreclosures that were in process or completed in 2009 or 2010 (the Independent Foreclosure Review) to identify financial injury to borrowers that resulted from errors, misrepresentations, and other deficiencies in the foreclosure process. The Independent Foreclosure Review also requires those servicers to provide compensation or other remediation for identified financial injury.

The OCC and FRB have developed a financial remediation framework (the Framework) that provides examples of situations where compensation or other remediation is required for financial injury due to servicer errors, misrepresentations, or other deficiencies. The independent consultants will use the Framework to recommend remediation for financial injury identified during the Independent Foreclosure Review. The servicers will prepare remediation plans based on the independent consultants' recommendations. The federal banking regulators must approve each servicer's remediation plan.

The categories included in the Framework are not intended to be exhaustive or to cover all possible situations or remediation options for borrowers who may require compensation or other remediation for financial injury. It is important to read the Frequently Asked Questions (FAQs) that accompany the Framework to understand how remediation will work.
